MCLINC Adds Review Service to Online Catalog

Happy New Year! MCLINC has added a new service, made possible by a grant from the Richard P. Byler Charitable Fund of The Philadelphia Foundation. The ChiliFresh Review Program increases user interaction with our online catalog by adding the ability to write reviews about titles in our collection.

“The Byler grant has allowed MCLINC to pilot this expanded service for 2009. A new link is located below the cover image that displays when a search is conducted,” said MCLINC’s System Administrator, Maryam Phillips. “That link opens a form for our patrons to read, write and post reviews.”

To browse all of the holdings in MCLINC libraries go to: <http://www.mclinc.org> and click the link to Search the Catalog, or use the link on your MCLINC library home page.

MCLINC is the acronym for the Montgomery County Library and Information Network Consortium, a non-profit 501(c)(3) organization whose members are public libraries in Montgomery County, Pennsylvania. For more information about MCLINC, contact your local MCLINC library or Maryam Phillips, System Administrator at 610-238-0580 or mphillips@mclinc.org.
